

CAPABILITIES STATEMENT

About Hana

Hana Engineers and Consultants, LLC delivers high-quality engineering, scientific, and construction management solutions for the federal marketplace. As a Small Business Administration (SBA) certified small business, Hana combines the agility of a small business with the expertise of seasoned professionals. Our team brings big-firm experience to a collaborative environment, providing innovative and cost-effective results. In addition to environmental, geotechnical, and civil works expertise, Hana offers proven capabilities in drilling, remediation, and demolition — ensuring comprehensive solutions for complex federal projects.

Federal NAICS Codes

541330	541620	562910
541513	541990	237990
541611	561210	238910

GSA OASIS+ SB: 47QRC A25DSB52

GSA OASIS+ 8a: 47QRC A25DA351

GSA Schedule: 47QRAA22D003N

Key Differentiators

- Capacity to Scale
- Flexibility and Response Time
- Highly Skilled, Multi-Disciplinary Team
- Access to skilled partners
- Owner-Operated Equipment
- CMMC Level 1 (Level 2 pending)

ENVIRONMENTAL

Site Assessment/Investigation

- CERCLA/RCRA
- Geologic, Hydrogeologic, Geophysical
- Risk Assessments
- Hazardous waste and materials management
- Compliance Monitoring
- Natural Resources
- Emerging Contaminants

Munitions

Range Assessments

- Environmental Vulnerability/Condition Assessments

Military Munitions Response Program

- Site Investigations
- Underwater and Terrestrial Digital Geophysical Mapping

Operational Range Clearance

- MEC Removal
- Vegetation Management
- Target Replacement

CONSTRUCTION MANAGEMENT

- Technology
- Program and Project Management
- Quality Management
- Project Controls

DRILLING & FIELD SERVICES

- Auger Drilling (Hollow Stem & Conventional Flight)
- Rotary Drilling (Wet/Mud & Air)
- Sonic Drilling
- Core Drilling
- Direct-Push Technologies (Geoprobe & Hydraulic Profiling Tool)

ENGINEERING

Geotechnical

- Engineering and Design
- Site Characterization
- Instrumentation

Civil Works

- Dredged Material Management
- Shoreline Stabilization
- Coastal Engineering

Environmental

- Treatability Study Design
- Stormwater System Design
- Shoreline Stabilization
- Remediation System Design
- Remediation System Optimization

REMEDIATION & DEMOLITION

- Environmental Remediation and Restoration
- Earthwork and Site Preparation
- Specialty Demolition and Decommissioning
- Waste Management and Hazardous Materials Abatement
- Contaminated Soil, Sediment, and Debris Removal & Disposal
- Groundwater and Vapor Intrusion Treatment
- In Situ and Ex Situ Treatment Technologies
- Site Restoration Post-Remediation
